

Current Vacancies

Industrial Refrigeration Engineers Manchester – East Anglia – London – Bristol

Applicants should have experience in maintaining, servicing and commissioning industrial plants containing HCFC and HFC refrigerants, as well as NH₃ systems.

An NVQ Level 3 or other appropriate qualification in refrigeration and air conditioning is required, together with current refrigerant handling certificate. Demonstrable electrical/mechanical knowledge and a detailed understanding of refrigeration principles and practices are essential for this role.

Applications to 3cl@3cl.com or post to **3CL**, Stafford Park 16, Telford, Shropshire TF3 3BS
